Ease & Comfort

A low-vibration, low-noise, fully floating pillar-less cabin with excellent field of vision and large capacity air conditioner is available as an option, further increasing operator comfort while working. Furthermore, superb features such as power assisted control lever, smooth two-stator torque converter, and electrical switch-parking brake, full hydraulic power steering with steering synchronizer help to eliminate stress and reduce driver fatigue.

Multi-function Suspension Seat (Option)

An optional seat equipped with reclining function, seatbelts, and body weight adjustment feature is available. This same seat can also be equipped with an optional seat swivel function. The ergonomic seat design ensures operator comfort while working.

Easy cabin entry and exit

Comfortable seating when driving backwards

Full Hydraulic Power Steering with Steering Synchronizer

In order to realize smooth handle operation, knob displacement has been eliminated using knob positioning control to automatically align the rear wheel cornering angle and steering.

Key-off Lift Lock

The lift is automatically locked the moment the vehicle is turned off.

Economy

Maintenance cost **60% lower** than previous model

Wet Disc Brake with Dedicated Cooling Circuit.

A dedicated oil cooler is used to perform forced cooling in order to avoid problems caused by heating. This highly reliable brake not only provides the operator with peace of mind, but also contributes to greatly reduced brake maintenance costs.

Wet Disc Brake

The model shown is equipped with optional equipment.
